

2630ES Electric Scissor Lift

Proportional drive, lift and lower give smooth control

> Low maintenance nonskid aluminium platform with extension deck and Load Sensing System

> > Minimum hydraulic components reduce maintenance and operating costs

> > > Tie down and lifting lugs for ease of transport

Electric drive motors and reduction hubs on front steer wheels for maximum traction and easy turns

Pothole protection bars reduce ground clearance when elevated and increases ground clearance when lowered for obstacle free travel

One handed operation for operator comfort and control

Compact size and narrow width for ease of access through internal doorways after lowering handrails

Manual bleed down

Automatic battery charger with cutout - saves battery life

> Non-marking tyres on solid cast steel rims

2630ES Electric Scissor Lift

QUESTIONS TO ASK

- What is the floor loading in the work area?
- Do you want to work multiple shifts?
- Do you need to move up and down ramps?
- Do you need to enter narrow doors?
- · Do you need an extension lead outlet in the platform?
- · Are you working in a food or clean environment and can't have oil fumes?

KEY SELLING POINTS

- Smooth control, proportional drive, lift and lower
- Long battery duty cycles, drive at full elevation for 18 hours
- 76cm wide chassis allows drive through a standard 81cm door. 7.92m foot platform, 76cm wide
- Fold-down rails allows drive through standard 203cm door.
- Extension platform has fold-down rails
- Non-marking solid tyres with tight turning circle, zero inside turning radius
- Constant traction control with quiet electric front wheel drive for 25 per cent gradeability
- Removable/Interchangeable control box with all other ES scissors
- Weatherproof Inverter style battery charger, can use long extension lead. Ideal for multi shift applications
- Wide scissor stack provides rigidity and stability, kick arm on lift cylinder provides cushioned lowering
- Pothole protection prevents elevated drive, not lift
- Multi axis 3 degree level sensor with a lateral slope range of 3 degree at base to 1-1/2 degree fully elevated
- Diagnostic Battery Meter at base or JLG analyser indicates system functions for servicing and adjustment

APPLICATIONS

- **Facilities maintenance**
- Shopping centres and other indoor areas only
- Manufacturing and warehouse applications and stock-takes
- Telecommunications facilities
- **Entertainment facilities**
- Electricians
- All maintenance and construction work
