HAND PALLET TRUCK M25-M30

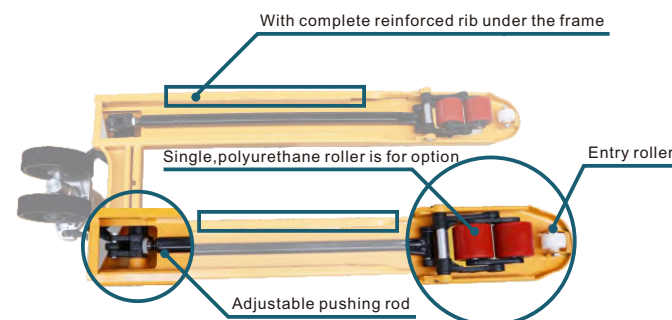

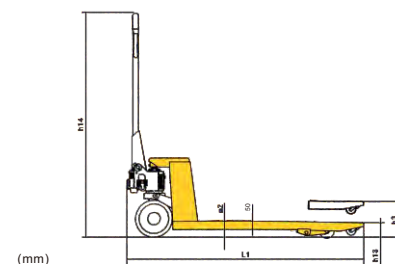

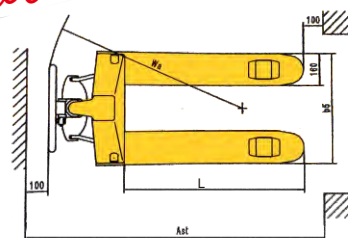

MOST STANDARD AND POPULAR MODEL WITH CAPACITY 2500 - 3000KGS.

- Ideal for all variety of manual transport tasks over short distances in stores and warehouse as well as factory plants.
- Top class range of hand pallet trucks with excellent designs.
- Reliable, robust and durable due to its extremely strong high quality steel profile, perfect powder coating and painting quality which is resistant to chip and corrosion.
- The lifting system with overloading protection valve to ensure the safe operation 210 degree steering arc with small turning radius.

Professional

HAND PALLET TRUCK M20S

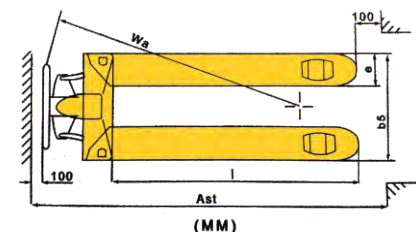

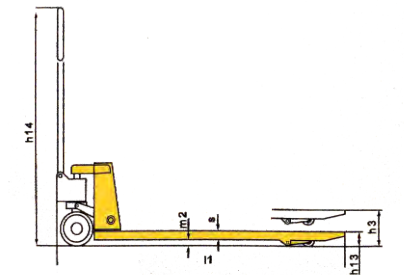

ECONOMIC DESIGN PALLET TRUCK MODEL WITH CAPACITY 2000KGS, MAKE IT IDEALLY SUITED FOR A WIDE RANGE WORKING REQUEST.

- Economic but reliable, smart and easy to operate.
- Ergonomically designed handle, with three position lever for lifting, transporting and lowering purposes.
- Welding pump with leaking-proof design.
- Reliable, robust and durable due to its extremely strong high quality steel profile, perfect powder coating and painting quality which is resistant to chip and corrosion.
- The lifting system with overloading protection valve to ensure the safe operation 190 degree steering arc with small turning radius.

Aisle width for pallets 800×1200 lengthways	Ast(mm)	1720/1790
weight	kg	55-65

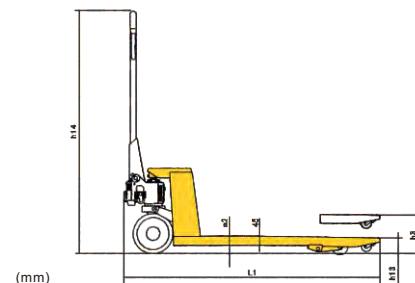

Economy

OPTION:

- Nylon wheel, Polyurethane wheel, rubber wheel
- Single fork roller, tandem fork roller
- Pump color: black painting, silver galvanized
- Brake system
- Galvanized pallet truck or stainless steel pallet truck available

Remark: Special size for width and length can be made according to customer's request.

HIGH LIFT SCISSOR TRUCK

- Supporting legs and adjustable stabilizers extended to the floor automatically when the forks reach a height of 420mm, to ensure the max. stability.
- The descending speed always keeps same regardless the truck with or without loading, which prevents cargo damage from last descending.
- Different handle for option.
- Capacity: 1000kg/1500kg.

GALVANIZED
PALLET TRUCK

STAINLESS STEEL
PALLET TRUCK

Widely used in the fields of meat and other food industry;
Could work in low temperature conditions, e.g. to deliver goods into and out of freezers or coolers.

PALLET TRUCK
WITH BRAKE SYSTEM

Pallet truck with brake system can conveniently cease the truck and navigate ramps.

LOW-PROFILE
PALLET TRUCK

Special size pallet truck can be produced as per customer's request

ØPU Wheel —
Quiet and durable,
ideal for delicate
floors with hard
wearing and non-
marking property.

ØNylon Wheel —
Low drag efforts,
high resistance to
chemicals, non-
marking, ideal for
smooth level floors.

ØRubber Wheel —
Best choice for quiet
and durable demands,
ideal for smooth and
rough floors.

Hydraulic Lift Table

- High quality hydraulic ensure reliable long life
- Designed as per CE standard
- With protection bracket and brakes on rear wheel
- With overload protection

HAND STACKER

- High quality mast steel ensures rigidity, durability.
- High effiperating lighter, more comfortable.
- Lifting spped keeps smooth regardciency pump ,oless of loading weight, which is safe to use.
- The stacker can be lifted by handle or foot pedal.
- Hand control valve precises control convenience.
- Integral pump, which prevents loosening, leak- proof.
- Set the active safety valve to prevent overloading of use.
- Maitenance-free design, ensures security, reduces service cost.
- Fork styles as below are for options.

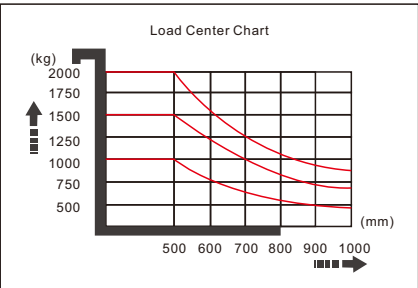

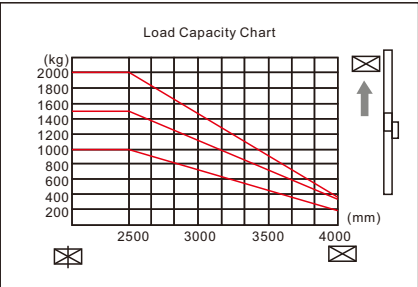

HAND STACKER OF STRADDLE LEGS

- C-steel ensures high capacity,rigidity.
- Oil leaking-proof pump,2 years warranty.
- 180mm bigsteering wheel desing

• Option with adjustable wide legs

Standard Semi-electric Stacker

- Compact design with strong European steel construction.
- Simple and convenient lifting operating system.
- Light and easy manual steering system, equipped with a parking brake.
- Smooth control of precise lifting and lowering.
- Special design are available according to customers' requirements.

SEMI-ELECTRIC STACKER 1-2T

- Strong mast material ensure high capacity
- Explosion-proof valve in the pump, to avoid rapid decline to protect the operator
- Over-discharge protection device greatly extends battery life
- Lifting speed keeps smooth regardless of loading weight, which is safe to use
- Maintenance-free design, ensures security, reduces service cost
- Three different types of forks are optional
